## What you need to know about Security and Screen Doors

Available in a wide selection of colours to suit your home, our security screens are available in a wide ranges of mesh and locking systems.

Ask about our patented and superior INVISI-GARD security mesh to give your home superior screen protection.

## Door Accessories

### Pet Doors

Available in both large and small sizes, Burns for Blinds pet doors are strong, safe and lockable against any threat of intruders.

### Triple Point Locking System

For added security, Burns for Blinds offers a 3 point locking system that offers a top, central and bottom locking point that dramatically strengthens the locking capabilities of your security door.

### Prowler Guard

A transparent plastic guard designed to protect the lock snib of your safety door. This guard sits behind the lock of your door and increases your security without adding a significant cost to the door.

### Bug Strip

Burns for Blinds bug strips block the gap between your Burns security door and the ground, eliminating draughts and entry point for flies, mosquitoes, bees & bugs.

## Burns Design

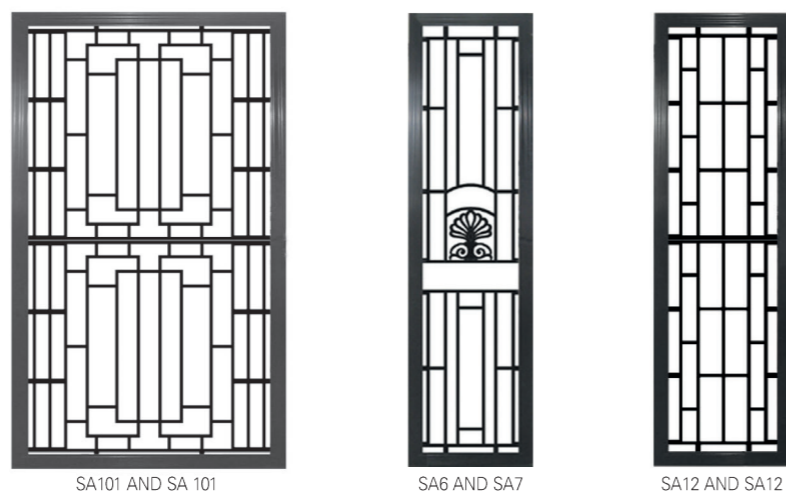

- ✓ Designed to suit all standard framing, choose between a range of styles, patterns and colours.
- ✓ Our range of fully tested products, together with our professional and personal service will ensure that your expectations of quality and reliability are met in every occasion.
- ✓ Burns for Blinds offers both traditional and contemporary designs in an extensive range of colour finish that will match any facade.
- ✓ Plus we offer the added benefits of being able to powder coat to any colour of the extensive Dulux colour range.

## Security Door Mesh Options

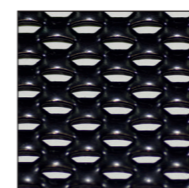

### Paw Proof Mesh

Vinyl coated flexible fibreglass mesh is ideal for homes with pets and children as it is far stronger than standard fibreglass mesh. It will not rust, corrode or rot and is UV stabilised, making it last much longer.

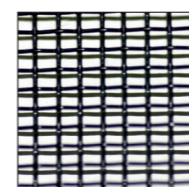

### Tufflite Mesh

This Powder Coated aluminium mesh resists heat, tears and damages from people and pets. Tufflite Mesh is designed for bushfire prone areas and with its added strength increases the security of your home.

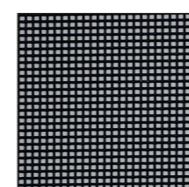

### DVA 1 Way Mesh

Designed for strength and privacy, in the right light it enables you to see out without anyone being able to see in. Far stronger than flywire, DVA is a great option for those seeking quality and security.

### Fly Wire Mesh

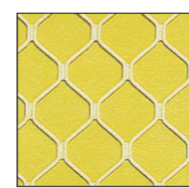

The most common out of all mesh used, fly wire is a light weight mesh that keeps all insects out and has anti rot and anti corrosion properties, whilst having minimal restrictions on airflow.

### Invisi-Gard

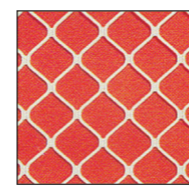

Using the unique, INVISI-GARD Patented EGP Retention Method, you can be assured that the Stainless Steel Mesh will defy the most determined attack from both intruders and corrosion. Tested and approved in accordance with Australian Standard AS5039.2005.

## Diamond Grille Options

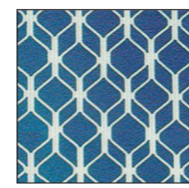

### A127 Standard Diamond

Strand thickness 7mm. This grille meets the shear strength requirement of Australian Security Door Standard AS5039.

### A117 Small Diamond

Strand thickness 7mm. This grille meets the shear strength requirement of Australian Security Door Standard AS5039.

### A227 Decorative Diamond

Strand thickness 7mm. This grille meets the shear strength requirement of Australian Security Door Standard AS5039.

## Screen Features

- ✓ Provide safety and security for your home
- ✓ Long-lasting
- ✓ 3-point locking system
- ✓ Different Mesh available including:
  - Paw proof
  - DVA (one way vision)
  - Invisi-Gard (Stainless Steel)

HERE'S WHY SOUTH AUSTRALIANS CHOOSE

# Burns for Blinds

Buy direct from the manufacturer and save, plus have confidence in knowing you support a local South Australian company and its people.

Heavy duty door built tough and built to last. Burns for Blinds use no plastic supports to hold frame together as used by many competitors.

The ultimate system provides increased clearance making installation much easier, whilst allowing for natural house movement without the door rubbing.

Have confidence in knowing you are purchasing a product that has been fully tested and over complies with all relevant Australian Safety Standards.

The Burns for Blinds strike plate is designed to deform under attack from intruders, to enable the door to remain fully closed and locked at all times.

If one of our standard 14 colours doesn't suit your needs, you still have the freedom of choosing any of the Dulux powder coating colour range.
